Cascata Grey, which is extracted from the Castaca Quarry owned by the AET Company is indispensable for every project that is desired to be customized with its strong veins and pattern movements. Suitable for both indoor and outdoor floors and walls, the product creates a "unique" aesthetic perception with different surface treatments. Cascata, which provides a magnificent and eye-catching effect especially with bookmatch applications has already managed to become the favorite stone of designers.

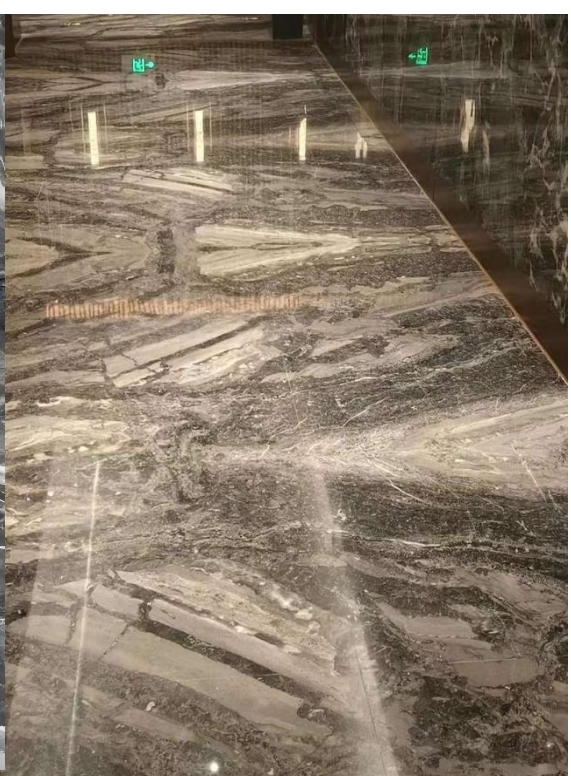

life is
too short to worry
about stupid things.
Have fun.
